Covid Guidance from Derbyshire County Council 27th April 2022:

The guidance for education settings is now:

- Children with mild symptoms such as a runny nose, sore throat, or mild cough, who are otherwise well, can continue to attend their education or childcare setting.
- Children and young people who are unwell and have a high temperature should stay at home and where possible avoid contact with other people. They can go back to their education or childcare setting when they no longer have a high temperature and they are well enough.
- If a child or young person has a positive COVID-19 test result, they should try to stay at home and, where possible, avoid contact with other people for 3 days after the day they took the test. The risk of passing the infection on to others is much lower after 3 days if they feel well and do not have a high temperature.
- Children and young people who usually attend an education or childcare setting and who live with someone who has a positive COVID-19 test result should continue to attend as normal, as long as they feel well.
- Any staff who have a positive COVID-19 test result should try to stay at home for 5 days after the day they took the test.
